---

Profile

MERN Stack Developer with hands-on experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Strong in developing scalable REST APIs, reusable frontend components, and secure authentication systems. Comfortable working remotely with UK-based teams and delivering production-ready solutions.

Technical Skills

- **Frontend:** React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **UI Frameworks:** Material UI (MUI), Bootstrap, Reactstrap
- **State & Routing:** Redux Toolkit (RTK), Redux, React Router
- **API & Auth:** REST APIs, JWT Authentication, Axios, Postman
- **Practices:** MVC Architecture, Reusable Components, Performance Optimization
- **Tools:** Git, GitHub, VS Code

Work Experience

React.js Developer — Creart Solutions Pvt. Ltd

September 2024 – Present

- Developed optimized React.js applications using reusable components
- Worked with common UI components to improve consistency and performance
- Contributed to two major projects: **Print to Click** and **Lockify**.
- Handled Axios integration and optimized third-party libraries

React.js Trainee — Bigscal Technologies Pvt. Ltd

January 2024 – August 2024

- Gained hands-on experience in Front-End Development
- Worked with HTML, CSS, JavaScript, React, Redux, Router, and MUI
- Built UI components and learned best coding practices

Projects

Lockify — Secure Password & Document Manager (MERN)

- Developed a secure MERN stack application for storing users' website passwords and confidential documents
- Implemented strong encryption using Node.js crypto module to protect sensitive user data

- Built secure REST APIs using Node.js and Express.js with JWT-based authentication
- Integrated Razorpay for secure subscription and payment processing
- Implemented email notifications using a mailer service for account-related actions
- Handled client-side routing with React Router DOM and API communication using Axios
- Designed reusable and optimized React components with Redux Toolkit for state management
- **Tech:** MongoDB, Express.js, React.js, Node.js, Crypto, JWT, Razorpay, Axios, React Router DOM, Postman

Healthray Lab — Laboratory Management System

- Developed a healthcare web application to manage laboratory samples, test reports, and patient records
- Implemented role-based access for lab staff to securely handle sensitive medical data
- Built reusable and responsive React components for dashboards and data management screens
- Integrated REST APIs using Axios and handled asynchronous data flows
- Optimized UI performance and ensured consistent user experience across devices
- **Tech:** React.js, Node.js, REST APIs, Axios, Reactstrap, Material UI

GIFT-City — Government Service Management Application

- Contributed to a government web application managing public services such as Power, Water, and Industrial operations
- Developed scalable frontend modules using React.js and Material UI following enterprise standards
- Integrated RESTful APIs with Redux Toolkit (RTK) for efficient state management
- Implemented complex forms and validations using Formik
- Collaborated with backend teams (.NET) to ensure secure and reliable data exchange
- **Tech:** React.js, Material UI, Redux Toolkit, Formik, REST APIs, .NET

Education

Bachelor of Technology (B.Tech)
Ganpat University — 2020 to 2024
CGPA: 7.44

Core Skills

- Project Management
- Public Relations
- Team Collaboration
- Time Management
- Effective Communication
- Critical Thinking

Languages

- English (Intermediate)
- Hindi (Fluent)
- Gujarati (Fluent)
- Sindhi (Fluent)
